

MEETING REPORT

Team Name: Jobify.al **Date of Meeting:** April 4th, 2017

Start Time: 9:30 **End Time:** 10:45 **Meeting Location:** Epoka Clubs Office

Moderator: Eglaj Hajdini **Recorder:** Anisa Oshafi

Other Members Present: Boris Pengili
Enes Musaogullari
Bilal Skilja

Members Absent: No absent members

Topics Discussed:

We mainly discussed on the technologies that we are going to use for the software development process. Each one of us presented advantages and disadvantages of several frameworks and technologies, such as Lavarel, Symphony, Django, Android etc. based on personal research.

Decisions Made:

We decided that the core of our software will consist in Lavarel, which is a free, open-source PHP web framework intended for the development of web applications following the model-view-controller (MVC) architectural pattern. The flexibility it allows in Integration with Tools for Making Web Applications Faster is to appreciate.

Tasks Assigned:

Each member's task until tomorrow's meeting, is to install Lavarel on our own pc, and to familiarize with its environment.

Time, Place, and Agenda for Next Meeting:

The next meeting is arranged for Thursday April 5th, 2017. Time: 8:45 – 11:30, Place: PC Lab 2.

Tomorrow we will consider the organization of our project structure. We will decide on the necessary logical modules our software needs.
