

# MEETING REPORT

**Team Name:** Jobify.al      **Date of Meeting:** 05.04.2017

**Start Time:** 8:45    **End Time:** 11:30    **Meeting Location:** Computer Lab 2

**Moderator:** Egla Hajdini      **Recorder:** Anisa Oshafi

**Other Members Present:** Ahmet Enes Musaoğulları  
Bilal Skilja  
Boris Pengili

**Members Absent:** No absent members

## Topics Discussed:

We discussed on the structure of the project and the main functionalities it will provide. During this meeting, we also further improved our project description.

## Decisions Made:

We decided on creating a multilevel login system that authenticates the following roles: job offerors, job seekers and a super admin, that is positioned on the top of the hierarchy. The software will consist of a module for employers to publish new vacant job positions and a module for job seekers to search and apply for any relevant position. We came up with a new idea, on involving a module called 'Trainings' in which companies will provide trainings for interested job seekers.

## Tasks Assigned:

Until next meeting, we should have a demo version of the requirements specification of Jobify.al.

Ahmet Enes will be responsible for product requirements of our system.

Boris will be responsible for external requirements of our system.

Bilal will be responsible for organizational requirements of our system.

Anisa + Egla will be responsible for functional and domain requirements of our system.

We are required to find information related to these requirements with respect to our system. All the group members agreed with their assigned tasks.

## Time, Place, and Agenda for Next Meeting:

The next meeting is arranged for April 11<sup>th</sup>, 2017. Time: 13:15 at Epoka Clubs Office.

We will report on our tasks and decide on the requirements specification of Jobify.al.
