Topics Discussed:

This was group first meeting , where Software Engineering Project Ideas were presented by group members. At the end of the discussion , the proposed topics for project were:

- Building reservation system for bus ticket
- Building canteen/restaurant automation system
Because of drawbacks of presented ideas we tried to focus more on finding a problem (unemployment) which requires an immediate solution .

Decisions Made:

At the end of the meeting , after narrowing our topic to a manageable scope we decided to build a platform in help of "Zyra e punesimit , Tirane" . It will enable Albanian employers and employees find what they need.
It was also decided the mean of communication with group members . We created a group in Google Hangout .

Tasks Assigned:

For the next meeting , each member is going to perform a research on the technologies that we are going to use for the software development process.
Anisa – Android
Boris - Symphony
Ahmet Enes – Laravel
Bilal - Django
